TRANSFERRIN, BIOCHEMISTRY, PHYSIOLOGY AND CLINICAL SIGNIFICANCE

E. H. MORGAN

Department of Physiology, University of Western Australia, Nedlands, Western Australia, 6009

Contents

		Page
Introduction		3
Chapter 1	CHEMICAL AND PHYSICAL PROPERTIES	6
	Properties	6
	Comparison of Transferrin with Ovotransferrin and Lactoferrin	14
	Genetic Polymorphism	15
Chapter 2	SYNTHESIS AND METABOLISM	16
	Biosynthesis	16
	Distribution and Turnover	23
Chapter 3	FUNCTIONS	27
	Introduction	27
	Iron Transport	27
	Iron Uptake by Erythropoietic Cells	31
	Iron Uptake by Hepatocytes	51
	Iron Uptake by Reticuloendothelial and Lymphoid Cells	53
	Iron Uptake and Transfer by the Placenta	54
	Iron Transfer from Cells to Transferrin	57
	Role of Transferrin in Iron Absorption and Excretion	58
	Transport of Metals other than Iron	61
	Iron Transport by Proteins other than Transferrin	62
	Defence Against Infection	65
	Growth Promoting Functions of Transferrin	68
	Other Functions of Transferrin and Iron-binding Proteins	69
Chapter 4	CLINICAL SIGNIFICANCE	71
	Plasma Iron and Transferrin Concentrations in Health and Disease	71
	Iron Deficiency	75
	Idiopathic Haemochromatosis	76
	Atransferrinaemia	77
	Malignant Diseases	78
	Disorders of Lymphoid Tissue and Immune Function	81
	Protein - Calorie Malnutrition	82
	Genetic Disorders of Transferrin Function	83
	ACKNOWLEDGEMENTS	84
	REFERENCES	85
